

# Faucet Aerators:

*Easy to install, easy to use, easy to save!*

## Perfect For Any Use

No matter where you need it, there's an aerator designed just for your application. Aerators create billions of micro-bubbles which help make soap and detergents work more effectively while rinsing cleaner. With just a flick of the wrist, change your flip aerator from a steady stream to a spray to help remove hardened food and debris from dishes.

## Don't Let Your Money Go Down The Drain.

How would you like to save as much as \$20 a year in water and energy costs? For the bath or the kitchen, our full line of aerators are designed to conserve resources and lower utility bills while providing you with great water pressure. Available with flow rates of 0.5 gpm to 2.0 gpm, the aerators are ideal for use in the kitchen or bathroom.

**Kitchen Aerators:** Our kitchen aerators have been designed specifically for daily use and abuse, saving you money, time and water.

## Bathroom Aerators:

Whether you are brushing your teeth or washing your face, nothing saves water and money like a bathroom aerator fixture.

# Faucet Aerators
